

GRADE 7 ENGLISH FIRST ADDITIONAL LANGUAGE

Language is a tool for thought and communication. It is also a cultural and aesthetic means commonly shared among a people to make better sense of the world they live in. Learning to use language effectively enables learners to acquire knowledge, to express their identity, feelings and ideas, to interact with others, and to manage their world. It also provides learners with a rich, powerful and deeply rooted set of images and ideas that can be used to make their world other than it is; better and clearer than it is. It is through language that cultural diversity and social relations are expressed and constructed, and it is through language that such constructions can be altered, broadened and refined.

First additional language refers to a language which is not a mother tongue but which is used for certain communicative functions in a society, that is, medium of learning and teaching in education.

The First additional language level assumes that learners do not necessarily have any knowledge of the language when they arrive at school. The focus in the first few years of school is on developing learners' ability to understand and speak the language - basic interpersonal communication skills. In Grades 2 and 3 learners start to build literacy on this oral foundation. They also apply the literacy skills they have already learned in their Home Language.

In the Intermediate and Senior Phases, learners continue to strengthen their listening, speaking, reading and writing skills. At this stage the majority of children are learning through the medium of their First Additional Language, English, and should be getting more exposure to it. Greater emphasis is therefore placed on using the First Additional Language for the purposes of thinking and reasoning. This enables learners to develop their cognitive academic skills, which they need to study subjects like Natural Sciences, mathematics, etc. in English. They also engage more with literary texts and begin to develop aesthetic and imaginative ability in their Additional Language.

By the time learners enter Senior Phase, they should be reasonably proficient in their First Additional Language with regard to both interpersonal and cognitive academic skills.
